

Name in English: David Ho

Name in Chinese: 何大一

Name in Pinyin: Hé Dà'yī

Gender: Male

Birth Year: 1952

Birth Place: Taiwan

Profession (s): Physician and AIDS Researcher

Education: B.S., Physics, Summa Cum Laude, 1974, California Institute of Technology; M.D., 1978, Harvard Medical School

Awards: 1996, TIME magazine Man of the Year; 1997, Member, Institute of Medicine, National Academy of Science; 2001, Presidential Citizens Award

Contribution (s): Dr Ho is a pioneer in the field of AIDS research. He defined the dynamic nature of HIV replication which led him to champion combination antiretroviral therapy. This has dramatically lowered AIDS-related deaths in developed countries. He also established the world class Aaron Diamond AIDS Research Center, one of the largest and foremost institutes devoted to the mission of combating HIV/AIDS

Publications: Published over 350 scientific journal articles on AIDS research.
